# WILDLIFE FRIENDLY ALDERBURY

Do you care about climate change, nature, wildlife and the local environment? Of course, and we do too. That is why Alderbury Parish Council and Wiltshire Wildlife Trust are launching the exciting Wildlife Friendly Alderbury Project and we want everyone to have a chance to get involved. From making your own space wildlife friendly to joining with others to deliver big projects in the village – we would love your company on this adventure.

Working together for Wildlife in Alderbury and Whaddon

# WILDLIFE FRIENDLY ALDERBURY

Alderbury Parish Council is working with Wiltshire Wildlife Trust to launch a brand-new nature project in the village – Wildlife Friendly Alderbury.

Wiltshire Wildlife will be undertaking a survey of the village – a kind of eco-audit – and reporting back to the Council with ideas on how we can increase biodiversity. And, the great thing about this is that everyone who loves nature can be part of the project. Yep, we can all do our bit for the planet and nature.

The idea is to identify some flagship projects – maybe a new wildflower meadow or a community orchard (why not both!) - something that makes an impact that the council can fund. But alongside that, there will be loads of little things we can all do to help – keeping records of birds and wildlife, putting up bird feeders, nest and bat boxes, planting a tree, making a bug hotel or a hedgehog house. WWT will be helping us to get everyone involved. The plan is to get the survey done in the Spring and then get everything geared up for action in early Autumn.

If you love the idea of this as much as we do – just ping us a message and we will add you to our growing list of Alderbury Wildlife Champions! We will be setting up an Alderbury Wildlife Group Facebook site where we can have a good natter about all things eco – let us know if you think this is a good idea.

Why not get involved?

## WILD LANDSCAPES

### Wiltshire Wildlife Trust

Wild Landscapes is a small team within the Wiltshire Wildlife Trust. We specifically aim to help individuals, schools, churches, councils or any other organisation transform their land. We provide the help needed to build havens for wildlife from management advice, habitat creation and site assessments, through to soft and hard design and landscaping.

Our team consists of Nick Self and Chelsie Phillips. With complementary skills and backgrounds Nick and Chelsie will take us through our project step by step to ensure you get the results that you want.

We can't wait to meet you!

Chelsie & Nick
