Proposed Traffic Management Measures

Plan 2022-149 ALDWRPD0001

I have proposed No Waiting At Any Time (NWAAT – double yellow line) restrictions. The proposed restrictions will mean that motorists are not able to park, but they are permitted to stop on the NWAAT restrictions to load and unload. Motorists can stop on the restrictions to load and unload for as long as it takes them to complete that activity, but they must then move their vehicle and park it in a location where waiting restrictions are not in place. Blue Badge Holders may park on these restrictions for up to three hours. The Council always seeks to minimise the length of any restrictions laid, to that end I have contained the restrictions to just Clarendon Road to address the specific problem raised. If the PC feel there is a need to provide restrictions in Southampton Road to keep that side of the junction clear then I would be happy to amend the proposals accordingly.
